

Priya Krishnan

priya@demo.com

TECHNICAL SKILLS

Languages: Python, R, SQL, Java, C++

ML/AI: TensorFlow, PyTorch, scikit-learn, Keras, NLP, Deep Learning

Data: Pandas, NumPy, Matplotlib, Seaborn, Spark

Databases: PostgreSQL, MongoDB, BigQuery

Tools: Jupyter, Git, Docker, Tableau, Power BI

WORK EXPERIENCE

Data Science Intern - AnalyticsCo (May 2024 - Present)

- Built ML recommendation engine using Python and TensorFlow
- Analyzed 10M+ records with Pandas and SQL
- Created NLP pipeline for sentiment analysis using transformers
- Deployed models with FastAPI, reducing inference latency by 40%

Research Assistant - IIT Delhi ML Lab (Jan 2024 - Apr 2024)

- Published paper on deep learning for medical image classification
- Implemented CNN and transformer models using PyTorch
- Processed datasets with Python, Pandas and NumPy

PROJECTS

Stock Price Predictor (Python, TensorFlow, LSTM)

- Time-series forecasting with LSTM neural networks
- Feature engineering with Pandas, visualization with Matplotlib
- Achieved 92% directional accuracy on test data

NLP Chatbot (Python, Transformers, FastAPI)

- Built conversational AI using fine-tuned BERT model
- REST API with FastAPI, deployed on AWS Lambda

EDUCATION

M.Tech AI/ML - IIT Delhi (2022-2024)

CGPA: 9.3/10 | Machine Learning, Deep Learning, NLP, Statistics
