

Rohan Mehta

rohan@demo.com

TECHNICAL SKILLS

Languages: Python, Go, JavaScript, TypeScript, SQL, Bash
Backend: FastAPI, Django, Node.js, Express.js, GraphQL
DevOps: Docker, Kubernetes, AWS, Terraform, CI/CD, Jenkins
Databases: PostgreSQL, MongoDB, Redis, Elasticsearch
Tools: Git, Linux, Nginx, Prometheus, Grafana

WORK EXPERIENCE

Backend Developer - CloudServe (Jul 2024 - Present)

- Designed microservices architecture with Python FastAPI and Docker
- Built REST APIs serving 50K requests/sec with PostgreSQL
- Implemented CI/CD with GitHub Actions, reducing deploy time by 70%
- Managed Kubernetes clusters on AWS EKS with Terraform

DevOps Intern - InfraStack (Feb 2024 - Jun 2024)

- Automated infrastructure with Terraform and AWS CloudFormation
- Set up monitoring with Prometheus, Grafana and ELK stack
- Containerized 15 services with Docker and Docker Compose
- Managed Linux servers and Nginx reverse proxies

PROJECTS

Microservices E-Commerce (Python, Docker, Kubernetes)

- 6 microservices with FastAPI, deployed on Kubernetes
- Event-driven with Redis Pub/Sub and PostgreSQL
- Full CI/CD pipeline with GitHub Actions

Log Aggregation System (Go, Elasticsearch, Docker)

- Real-time log processing with Go and Elasticsearch
- Deployed with Docker Compose, handles 10K logs/sec

EDUCATION

B.Tech Computer Science - BITS Pilani (2020-2024)
CGPA: 8.7/10 | Distributed Systems, Cloud Computing, OS, Networks
