

Vikram Singh

vikram@demo.com

TECHNICAL SKILLS

Languages: Python, C++, Java, R, SQL

AI/ML: TensorFlow, PyTorch, scikit-learn, OpenCV, NLP, Deep Learning

Data: Pandas, NumPy, Spark, Airflow, dbt

Cloud: AWS SageMaker, GCP Vertex AI, Docker

Tools: MLflow, Weights & Biases, Jupyter, Git

WORK EXPERIENCE

ML Engineer Intern - AIFirst Labs (Jun 2024 - Present)

- Fine-tuned LLMs for document understanding using Python and PyTorch
- Built NLP pipeline processing 1M+ documents with transformers
- Deployed ML models with FastAPI on AWS SageMaker
- Implemented deep learning models for image classification with TensorFlow

Data Analyst - InsightsCo (Jan 2024 - May 2024)

- Built dashboards with Python, Pandas and Tableau
- Wrote complex SQL queries on 50M+ row datasets
- Created automated ETL pipelines with Airflow

PROJECTS

Object Detection System (Python, TensorFlow, OpenCV)

- Real-time object detection using YOLOv5 and TensorFlow
- Trained on custom dataset with data augmentation
- Deployed with FastAPI, 30fps inference on GPU

Recommendation Engine (Python, Spark, PostgreSQL)

- Collaborative filtering with Python and PySpark
- A/B testing framework, improved CTR by 25%

EDUCATION

M.Sc Data Science - IIIT Hyderabad (2022-2024)

CGPA: 9.0/10 | Deep Learning, Computer Vision, NLP, Big Data
