

# MARY JONES EDURI

Aspiring Full-Stack Developer

Email : [maryjones2975@gmail.com](mailto:maryjones2975@gmail.com) | GitHub : <https://github.com/maryjones2975>

LinkedIn: <https://www.linkedin.com/in/maryjoneseduri/> | Phone : +91 8500563239

## Career Objective

Aspiring Full-Stack Developer with strong knowledge of HTML, CSS, JavaScript, React, and Git, and currently expanding skills in backend technologies. Focused on building responsive, user-friendly web applications and eager to contribute to real-world development projects while growing in a dynamic engineering team.

## Education

| Qualification                                                     | Board/University                                        | Year          | Percentage |
|-------------------------------------------------------------------|---------------------------------------------------------|---------------|------------|
| B.Tech (Computer Science & Engineering (Artificial Intelligence)) | PBR Visvodaya Institute of Technology & Science, Kavali | 2023-pursuing | 93%        |
| Intermediate                                                      | Sree Chaitanya Junior College, Kavali                   | 2021-2023     | 98.3%      |
| SSC                                                               | Jaya Usha High School, Kavali                           | 2021          | 98.5%      |

## Skills

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React, Bootstrap, Responsive Web Development, Sass
- **Programming:** C, Java, Python (Basics)
- **Tools:** Git, GitHub, Problem Solving
- **Soft Skills:** Quick learner, Adaptable to new technologies, Good communication, Teamwork

## Projects

- **AI-Based Text Summarization Web App (Python, Flask, Transformers)**  
Developed a web app that generates concise summaries from long text using Transformer-based NLP models with support for large inputs.
- **Pollen Grains Classification System (TensorFlow, CNN, Flask)**  
Built and deployed a CNN-based image classifier for pollen species identification with real-time web and API predictions.

## Internships

- **SmartBridge – AIML Intern (2 Months)**  
Worked with machine learning algorithms and foundational deep learning concepts, including CNNs and RNNs. Built AIML solutions using real-world datasets to gain practical implementation experience.
- **InternPe – Web Development Intern (1 Month)**  
Developed and completed assigned web development tasks using HTML, CSS, and JavaScript. Created responsive web pages while strengthening front-end development skills through hands-on projects.

## Achievements / Certifications

- Certified in C Programming, Java Programming, and Frontend Development from iGate Solutions, Kavali.
- Secured 2nd place in Paper Presentation at the Fest Event conducted by PBR Visvodaya Institute of Technology and Science.
